

MANZOOR A K

FULL STACK DEVELOPER

☎ +91 8086378480 | ✉ akmanchu7@gmail.com | 🌐 [Github](#) | 🔗 [LinkedIn](#)

PROFILE

Full-Stack Developer experienced in building fast, scalable web applications using the **MERN stack** and **Django**. Skilled in creating responsive interfaces with **React**, **Next.js**, **Tailwind CSS** and **Material UI** and developing robust backends with **Node.js**, **Express**, **NestJS**, and **Django REST Framework**. Proficient in **RESTful API design**, **JWT authentication**, and working with both **SQL (PostgreSQL, MySQL)** and **NoSQL (MongoDB)** databases. Passionate about writing clean, efficient code and delivering seamless user experiences.

SKILLS

Programming Languages: JavaScript, TypeScript, Python

Frontend : React.js, Next.js, Vite.js, Material-UI, Bootstrap, Tailwind CSS, Advanced CSS

Backend : Node.js with Express, NestJS, Django

State Management: Redux, Zustand, Context API

Databases: PostgreSQL, MongoDB, MySQL

Version Control: Git, Github, Gitlab

Tools & Platforms: Postman, Vercel, Render, Jira, VS Code, Axios, React Router

Soft Skills: Problem-solving, Team Work , Adaptability, Attention to Detail.

PROFESSIONAL EXPERIENCE

Fullstack Developer Intern

Softreey Technologies – Bengaluru, Karnataka

October 2025 - Present

- Built and deployed modern full-stack web applications using **Next.js**, **Tailwind CSS**, and **Node.js (Express)**, ensuring responsive design and optimal performance.
- Collaborated with cross-functional teams in an **Agile** environment using **Jira** and **Slack**, participating in daily stand-ups and sprint planning.
- Utilized **GitHub** for version control, pull requests, and collaborative development workflows.
- Implemented and tested **RESTful APIs** to streamline data exchange between frontend and backend.

Mern Stack Developer Intern

Upcode Software Labs - Kannur, Kerala

January 2024 - June 2025

- Developed and maintained web applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**.
- Designed and implemented **responsive, user-friendly UIs** with Bootstrap, Tailwind CSS, and Material-UI.
- Built and optimized **RESTful APIs** for seamless frontend-backend communication, improving application performance.
- Worked with **JWT authentication** to secure user login and data access.
- Gained experience with **Next.js**, **TypeScript**, **Mongoose**, **PostgreSQL**, and **NestJS**.
- Managed code versions and collaborated using Git & GitHub for smooth development and deployment.

PROJECTS

[Simple Hotel Website](#)

- **Features:** Full-stack web app for room browsing, availability check and booking. Filters by city, room type and dates.
- **Technologies:** MERN Stack(MongoDB, Express.js, React.js, Node.js), REST API, Material UI.

Live site: [simple-hotel-website](#)

Fullstack E-Commerce App (React + Django)

- **Features:** Full-stack web app for product browsing, user authentication, search, cart management, order placement, order tracking, and role-based access (customer, manager, delivery).
- **Technologies:** Django, Django REST Framework, React.js, Tailwind CSS, MySQL, Vite, REST API.

Token Booking App

- **Features:** Full-stack web app for doctor appointment booking, secure authentication, real-time slot availability, dynamic scheduling, and appointment management.
- **Technologies:** MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API, JWT, Bootstrap.

Live site: [token-booking-app](#)

Admin App For Employee Management

- **Features:** Full-stack web app for managing employee records, secure authentication with token required to view employee list, CRUD operations, employee data management, and responsive UI.
- **Technologies:** MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API, JWT, Middleware, Bootstrap.

Live site: [admin-employee-management-app](#)

User Management System (Backend)

- **Features:** A simple NestJS backend for JWT-based user authentication, user CRUD operations, storage using PostgreSQL and TypeORM.
- **Technologies:** NestJS, TypeScript, PostgreSQL, TypeORM, JWT.

My College App (Frontend)

- **Features:** A simple Next.js frontend college app, used dynamic routing and data fetching with Next.js. Styled UI components with Material-UI for a polished user experience.
- **Technologies:** Next.js, React.js, Material-UI
